

The zetcom group develops international leading software solutions and services for museums, collections and corporate archives as well as solutions for organizational management (foundations and associations) and environmental data management (administration and companies). Over 1.000 clients in more than 30 countries are using our flexible software solutions (SaaS) to develop and maintain cultural heritage, to manage daily business or to administer environmentally relevant institutions. They are supported by our headquarters in Switzerland, by our subsidiaries in Germany, the USA, Spain, France and by our worldwide partners.

For our offices in **Warsaw** (preferred), **Berlin** or **Bern** we are looking for an experienced permanent full- or part-time:

ETL Specialist (Extract-Transform-Load)

For this position you have a solid understanding of relational databases, data extraction, transformation and loading (ETL) procedures and tools as well as flair for big data sets combined with a solution-oriented and pragmatic can-do attitude. You plan, execute and assure quality of data migrations from various data sources to our own application's database (PostgreSQL) as competent specialist in customer projects executed by our project management colleagues.

You bring good know-how of databases, SQL, XML and similar as well as transformation scripting and check routines developing skills to the table. Any ETL tool experience is a plus. Additionally, the drive to continuously improve procedures and technologies in ETL, contributing to the competence building within our ETL community and enjoying a dynamic project environment is appreciated. Good level of English for business conversations is a must, German is an advantage.

You enjoy working in a small, virtual and distributed international team, being a key contributor to customer projects and to work in an entrepreneurial environment with more than 20 years of experience. In your work you like to pragmatically get things done as well as to innovate the way we work.

We are offering a long-term perspective and an advanced technical environment in an innovative company that competes successfully in international niche markets. You will have the chance to grow in a specialized team. Flexible working hours and passionate colleagues are awaiting you.

Any questions? Please contact our ETL Team Lead Mr Jörg Kruschinski (+49 30 346 55 69 01) or send an email to our recruiting team jobs@zetcom.com. We are happy to take care of your questions by any communication channel.
